Morse Classes These have now been organised, the person to contact is Bill, G4CUE on Good Easter 451.

The HF Bands are not too good at the moment, but 160 and 80 metre's still produce occasional rare bits of Dx, i.e. G4CUT worked OE3GBB on 160 with a 5 and 6 report. VHF Bands are starting to show signs of life this year with a three day lift which started on the 11th February. OE, SM and LA too were worked on the phone. Mike. G3ZLQ in Berkshire sends his regards to one and all, during a 2 metre QSO on Sunday.

Well, thats all for this month
